LIGHTERS

Cricket Lighters
Confidence of highest quality and safety!

Every day there is a need of million times of fire all around the world. This offers the opportunity to place the advertising message for a product, a service or a company in the spotlight of the user.

Cricket Lighters
Confidence of highest quality and safety!

Cricket

Almost unlimited possibilities of use make lighters to a long runner in the advertising. Actual printing and finishing methods gives the lighters an unique design and guarantee a successful brand performance.

The brand Cricket stays for highest quality and safety in the segment of advertising lighters. Innovative, fashionable design in combination with ripened technique make Cricket lighters to a must in the marketing mix.

The smooth flint-wheel ignition, the reliable piezo mechanism and user-friendly child resistant systems are features of this brand lighters. Tanks made of non-flammable, self-extinguishing nylon and the Fixed-Flame-System care about absolutely safety of the user.

Cricket lighters can be printed on all 4 sides. With digital sleeve and wrapping you get a 360° effect of your advertising. On top of a large range of standard body colours the lighters can be produced in nearly all PMS colours.

Quality

- ISO 9001, ISO 9994, GS certified
- Reliable operation of flint wheel and piezo mechanism
- More than 60 quality checks during production process
- Made in EU (The Netherlands), except Maxi/Maxi Metal (Philippines)

Safety

- User friendly child resistant systems
- Lighters made of non-flammable, self-extinguishing nylon
- Fixed Flame System to avoid dangerous tall flames
- Heat resistant to temperatures exceeding 65° Celsius
- Tight closing valves prevent permanent loss of gas

Design

- Fashionable, slim design in many trendy colours
- Special body colours available from 50.000 pieces
- Special colours of caps and levers on request

Creativity and variety

- Screen and tampon printing on all 4 sides
- 360° motive by digital sleeve
- 360° motive by wrapping

Economical

- Cricket lighters contain two or three times more gas than lighters without nylon bodies
